## World's Leading Distribution System and Provider of Travel Technology Solutions

Trawex is a [Travel Technology Company](#) and we help travel agents and service providers address complex business challenges by combining industry expertise, software engineering best practices and an agile delivery model. We reduce the time-to-market for new products and features, and improve quality with a cost-efficient approach.

## #1 Hiring software for you and your candidates

The screenshot shows a user interface for a hiring platform. On the left, there is a sidebar with various filters and search options. The main area has two sections: one for 'Applicants' and another for 'Interviews'. The 'Applicants' section displays a list of names and their status (e.g., 'Hiring M candidate', 'John Doe'). The 'Interviews' section shows a grid of profiles with names like 'John Python Developer at Stack Overflow', 'Software Engineer at jobs.agency', 'Student at Harvard', 'Engineer at Cloud Media', and 'Software Developer at Cloud Media'. Each profile includes a star rating and a small image.
